

EMSC

Emergency Medical
Services for Children

KANSAS

This resource is a communication tool for hospital emergency department and local public health department providers and their patients (designed with young children, non-verbal children and children with special needs in mind).

This document was created by Nye and Associates Smarter Marketing for Kansas Emergency Medical Services for Children (EMSC), Kansas Department of Health and Environment.

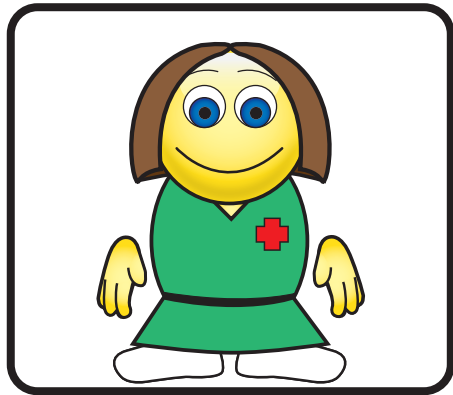

A HUGE thank you to the Minnesota EMSC and Children's Hospitals and Clinics of Minnesota, where this tool concept originated and have provided permission for use of their concept.

Funded by a grant from the Health Resources and Services Administration (HRSA) Maternal and Child Health Bureau H33MC06726.
